

STUDYING DIGITAL LEARNING ENVIRONMENTS AND NETWORKS

Interested in learning analytics and studying digital environments for teaching and learning?
Curious about social network analysis or using social media data in your research?

TPTE 595 (MA; special topics) and TPTE 695 (PhD; special topics)

Day/time: Tuesdays and Thursdays, 2:50 - 4:05 pm

Modality: Online, synchronous

Designed for students interested in asking research questions that can be answered using digital data sources such as data from online courses, educational technology tools, and social media platforms

Focused on educational applications, but open to any graduate student in *TPTE*, *CEHHS*, and across *UTK*. The course involves the use of the statistical software R; some prior knowledge will be helpful

If you have any questions, please contact Joshua Rosenberg, Ph.D (jmrosenberg@utk.edu)
